What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Infant Syrups, and Castor Oil. Castoria is the Children's Panacea—the Mother's Friend.

529.5

1886

LIFE.

THE child of which the above is a picture represents a healthy, well-cared for boy, one year old. We love his rounded form and chubby face at sight, and we say that "all children should be like him." Yes, they should be, but they are not. They would be, if the mothers of the little innocents fully realized the simple but important facts we shall here briefly state. Before they have advanced far in years, most children suffer from some kind of sickness. They cry from pain or languish in stupor. Many of them die before they have hardly begun the journey of life. The bright eyes and rosy lips of every third one are closed by death before their fifth summer has dawned. Twenty-two per cent., or nearly one quarter of all children born, die before they are one year old; 37 per cent. before they are five, and one-half before they are fifteen! This

Frightful Mortality

is appalling. It can be measurably averted. As we may snatch a child from before an approaching train, so may we give it the conditions which produce health, instead of those which develop disease. The causes of infantile irritability, sickness and disproportionate death are principally found in impure air; improper food and insufficient bathing.

Air and Ventilation.

ONE fifth of the air we breathe is an invisible substance known as oxygen. Without oxygen, neither vegetable nor animal life could have existence, and the earth would be as desolate and voiceless as the moon. The air also contains $\frac{1}{2500}$ parts of a deadly poison known as carbonic acid gas. The act of breathing increases and liberates one hundred times the quantity of carbonic gas, which is inhaled. A man destroys the oxygen, or vitalizing part of air, at the rate of one cubic foot a minute, or 60 feet an hour, or 720 feet in twelve hours. A child in pro-

portion. No person should therefore be permitted to sleep in a room smaller than 8x10 feet and 9 feet high, containing 720 feet of space. This quantity of air will last one pair of lungs but twelve hours.

Because pure oxygen and poisonous carbonic gas mingle and are invisible, they are not generally understood. Let us try to explain them. A large tallow candle, when burning, consumes 5 cubic feet of air in an hour, or 60 feet in twelve hours. Such a candle consumes as much oxygen in twelve hours as a man does in one hour. Light such a candle and confine it in a case containing 60 cubic feet, and before the expiration of twelve hours it will be seen to flicker and finally die or go out. A cat or a human being in the case, would gasp and die in exactly the same manner, only the child would die in one-twelfth part of the time. Carbonic acid gas, created by our own lungs, destroys life. This invisible, ever creating and death-dealing carbonic gas, in small or crowded rooms, gradually poisons and ultimately kills more human beings than all the wars, contagions and pestilences which otherwise afflict the human race. Never cover a child's face, even with a veil, much less with a blanket. Never permit him to sleep in an unventilated room.

Proper Food.

Nothing is proper food that cannot be burnt and decomposed by the oxygen inhaled. It is the combustion of food by oxygen that changes our nourishment into blood, flesh and muscle, that keeps in motion the lungs and heart, and produces a uniform temperature of 98 degrees, summer and winter alike. It ought to be as easily understood that invisible oxygen boils the human cauldron as it is to understand that invisible heat boils water.

Improper Food.

THE nursing mother should not eat rich pastrys, gravys, greens, spices, or acids, nor drink strong tea, coffee, beer or spirits. These things will not assimilate with an infant's food. They destroy the digestive fluid known as ptyaline, and instead of converting the food into nutrition, it is curdled and soured. This produces colic, flatulency, diarrhoea or constipation. Then follow fevers, eruptions or sickness of some kind. At such time Castoria will destroy the acidity and correct the difficulty. This is an important fact and should not be forgotten. Its timely use will prevent sickness.

A young child should not be permitted to eat new made bread, pastrys, grease of any kind, or overripe fruit, or stone pitted fruits, or the skins of any fruit, or raisin or strawberry seeds, or skimmed milk.

Bathing.

THERE are on the body of every human being, man and infant alike, 2,300,000 pores, scattered over every portion of the system. Over 2½ lbs. of the nourishment daily consumed by an adult, and proportionately by an infant, are liberated through these pores in the form of insensible perspiration. Much of this offensive matter is deposited on the skin and becomes a dry paste to close its pores. Unless frequently removed, it causes several ounces per day of this effete substance to be driven into the system, there to putrefy and poison every part. This necessarily produces internal disturbance and the various diseases we shall soon refer to. Sickness is caused by closing the pores of the skin, just as it is by closing the bowels. If only one half the body be painted and the paint becomes dry, the

person so painted will sicken and die. One of the offices of Castoria is to warm the skin and open the pores. The importance of doing this by some method cannot be overestimated.

These Facts

are generally known to educated physicians, yet puny children, crowded sick rooms, anxious mothers, blighted homes and countless little graves everywhere appall us. Murdered through ignorance is the verdict.

The Remedy.

THE true remedy is prevention, not medicine, but where errors have occurred we must correct them as far as we can. Based upon the facts above stated, the eminent pathologist, Dr. Samuel Pitcher, spent much time in formulating a prescription for children's complaints. It is not a secret. This prescription, under the name of "Castoria," has been widely published. The preparation assimilates the food, neutralizes poisonous inhalation, warms the skin, and vitalizes the fluids of the system. It strikes at the causes of incipient illness and uproots them at the beginning. As the masterly practice of Dr. Pitcher has become known, a diminution of the death rate among children has followed. For about thirty years this beneficent remedy has been growing in confidence, until now, Castoria stands alone as a child's medicine.

The sweetest music the house contains,
Is the shouting laugh of children's glee :—
Why let them cry with distressing pains
When Castoria all their pains will free.

The successors of Dr. Pitcher simply manufacture Castoria after his formula. Nothing more is attempted by them.

Infants.

WASH the new born babe daily with warm rain water and castile or glycerine soap. Powder with wheat flour starch. Do not wash his clothes or napkins in soda. It causes breaking out. White Lead is a poison. Change clothing frequently, and have it well aired. The head should be kept cool and the clothes loose. If there is no mother's milk, give milk warmed, from one cow or goat only. Gruel disorders the bowels. The best substitute for milk, is to boil good bread for two hours in water and add a very little lump sugar. Gradually lower the temperature of the room. Never give a child Godfrey's Cordial, Dalby's Carminative, Bateman's Drops, Syrup of White Poppies, Soothing Syrup, Paregoric or Laudanum. They all contain **morphine** or **opium**—temporarily soothing, but permanently injurious. Castoria produces a better temporary effect and is permanently beneficial. Vaccinate any time after two months.

Morning Stars. Mercury until February 24; April 8 to June 11; August 16 to September 27; and from December 3 to end of year. Venus, from February 18 to December 2.

Evening Stars. Mercury, from February 24 to April 8; June 11 to August 16; and from September 27 to December 23. Venus, until February 18; and from December 2 to end of year.

Church Days. Epiphany, January 6; Septuagesima Sunday, February 21; Ash Wednesday, March 10; Palm Sunday, April 18; Good Friday, April 23; Easter Sunday, April 25; Whit Sunday, June 13; Trinity Sunday, June 20; Corpus Christi, June 24; Advent Sunday, November 28; Christmas, December 25.

What was Joan of Arc made of? **Maid of Orleans.**

Why are the stars the oldest astronomers? **Because they have *studded* the heavens since the Creation.**

In what colors should an artist paint a storm at sea? **The winds *blew* and the waters *rose*.**

The difference between the North Pole and the South Pole is all the difference in the world.

After one month infants should be kept in a well ventilated room. Thermometer not above 65. After three months, he should be carried into the open air daily. Use no veil or covering to the head. He should sleep a great deal. Do not fail to bathe him thoroughly every day, and gradually get the water a little cool.

He wants Castoria.

He has had Castoria.

Flatulency, Eructation, Wind Colic, Acidity.—Cause, improper food. Usually attended by either constipation or looseness. To stop the cause—Proper food and Castoria.

Thrush or Aphthæ.—White pimples on lips, in mouth and throat extending to the intestinal canal of infant and nipples of nursing mother. Use plenty of pure soap and water, plain diet, borax wash and gargle and a little Castoria.

Prickly Heat.—Small red swellings, which burn, itch, irritate and become offensive, with some fever. Bathe, cool dress, light diet and Castoria.

Scurf on the head with dirty looking crust:—if removed it is red and inflamed;—do not remove it forcibly. Caused by heat, clothing and injurious food. Moisten with Centaur Liniment or emollient and otherwise, as for Prickly Heat.

Red Gum.—Small red pimples on face and head sometimes becoming one great disgusting scab; in early stages often mistaken for measles. Not dangerous, but can't be cured. Must be born; treat as above. A little Castoria.

Milk Crust.—Numerous small white pustules on red ground in clusters on face and body; form yellow or dark crusts, with sore eyes, swellings under the ear and on abdomen. Absolute cleanliness and Castoria. It will pass off at end of teething.

Erysipelas.—At 2 to 4 months—commences with red spots on buttocks, abdomen and privates; skin very dry and hard; muscles of mouth affected; fever or cold. Runs 4 to 14 days. Treat same as milk crust. If complicated with dysentery and great prostration, call a doctor, but generally Castoria is sufficient.

Hives or Nettlerash.—Small red pimples—changes location, itches, produces slight fever and irritability. Tepid baths and Castoria.

Tetter, or Herbes—Ringworm.—Small pimples in clusters—itch—break and form scabs. These symptoms indicate poor blood. Build up and purify the system, but do not drive them in by external remedies. Baths and Castoria.

Coryza—Cold in the Head—Snuffles.—Vary but little. They all partake of Catarrhal symptoms and should be energetically attacked with generous diet, warm clothes, Castoria, and Wei De Meyer's cure of Catarrh. The patient frequently breathes with difficulty, is fretful, sick and a great sufferer.

Dentition.

THE complications during teething, from 6 to 30 months, are many. If the child be feverish and irritable, the gums swollen and sore, lance the gums, otherwise convulsions may occur. It is on such occasions that the benefits of Castoria are quickly seen. If convulsions do occur, sponge the head and face with cold water and put him into a very hot bath as soon as you can. Lance the gum.

Convulsions.—Give the child once in ten minutes until he vomits, a teaspoonful of ipecacuanha wine; then put him in a warm bath for about 8 minutes. Then give him Castoria.

Do not use calomel or gray powder (mercury with chalk). Syrup of buckthorn and jalap are griping. They, as well as castor oil, irritate the tender bowels. Magnesia, instead of cooling, makes a child feverish and irritable.

Griping.—The child draws up his legs, screams, and has slimy, curdled stools. In such a case apply warm poultice to bowels and give him Castoria.

March, MOON'S PHASES. 1886.

There are four Meridians of time in the United States, viz.:—On the 75th, 90th, 105th and 120th meridian, 5, 6, 7 and 8 hours west from Greenwich. Our tables give exact time on those meridians. For exact time for 7½ degrees east of each mer., substract at rate of 4 min. for each degree; for 7½ deg. west, add at rate of 4 min. for each degree. GEO. W. COAKLEY, Professor of Astronomy, New York University.

When is a young lady "very like a whale?" When she is pouting.

A lawyer's ambition is first to get on, second to get honor, and sometimes, and last, to get honest.

Why did not the Children of Israel starve on the desert? Because of the sand-wiches there.

Why is a poor doctor like a mole? Because you can track him by his holes in the ground.

A young man who recently took to himself a wife says he didn't find it half so hard to get married as he did to get the furniture.

Centaur Liniment is reliable in case of Accident.

Life is restless and days are fleeting,
Children bloom but they die in teething;
Example take from Queen Victoria
Children nine all took **Castoria;**
No sleepless nights from babies crying
Like larks they rise in early morning.

An Illinois woman committed suicide by hanging herself to an apple tree. At the funeral a neighbor consoled the husband by saying that he had met with a terrible loss. "Yes," said the husband, heaving a sigh, "she must have kicked like thunder to shake off six bushels of green apples, that would have been worth a dollar a bushel when they got ripe!"

Indigestion—Constipation—Diarrhœa.—Nothing known to us so easily regulates the stomach and bowels as Castoria.

Chicken-Pox.—Notice shivering, small pustules on head, neck and trunk. No danger. Keep in house and take a little Castoria.

Whooping-Cough.—Use Roach's Embrocation and Castoria.

Earache.—Syringe with warm water; keep warm, and bind on a roasted onion or raisin.

Measles.—Put in bed in a warm room, low diet, and a little Castoria.

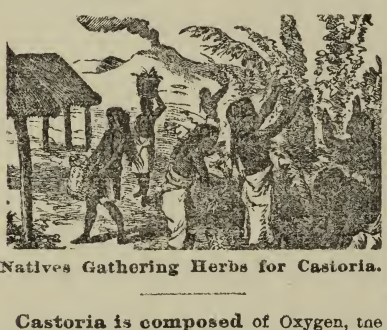
Worms.—Indicated by emaciation, itching of the nose, dark mark under the eyes, grating the teeth, fickle appetite, colicky pains, &c. Give the child Castoria freely.

Mumps.—Not dangerous. Keep in a moderately warm room and avoid taking cold.

Croup.—Most frequent between one and ten years. Commences with a dry cough, fever and hoarseness. Dangerous. Put warm bandages on throat, and send for a doctor at once.

Diphtheria.—A terrible disease. The child appears out of sorts, shivers, great lassitude throat and tonsils swell; are red and sore, white patches appear on tongue. Give a stimulant, fumigate the room by slaking lime, and summon a physician.

Scarlet Fever.—Indicated by drowsiness and fever. In two days scarlet spots appear and tongue looks as if sprinkled with red pepper. Put the child in bed, throw open the windows, be it winter or summer, and summon a medical man immediately.



Natives Gathering Herbs for Castoria.

Castoria is composed of Oxygen, the therapeutic properties of Pumpkin Seed, Senna, Mint, Aniseed, Oil of Wormwood, Salt, Bi-Carb of Soda, clarified Sugar, and Wintergreen.

THE EFFECTS are: **Anodyne,** soothing; **Assimilating,** gently cathartic; **Carminative,** for Colic, Flatulency and Diarrhœa; **Anti-febrile,** for allaying Fevers and neutralizing foul air; **Antispastic,** for Convulsions, and **Anthelmintic,** for Worms.

In this admirable prescription, mothers have something which is **absolutely safe, pleasant** to take, and **practically** perfect as a **child's medicine.**

Castoria destroys **Worms.**
Castoria allays **feverishness.**
Castoria is **pleasant to take.**
Castoria prevents vomiting **Sour Curd.**
Castoria cures diarrhœa and **Wind Colic.**
Castoria relieves **teething** troubles.
Castoria cures constipation and flatulency.
Castoria neutralizes the effects of **carbonic acid gas** or poisonous air.
Castoria does not contain **morphine, opium,** or other **narcotic** property.
Castoria assimilates the food, regulates the stomach and bowels, giving healthy and **natural** sleep.

What Thousands of Disinterested Persons Say:

"**Castoria** has a wonderful sale with us. It is superseding all other remedies."
E. WILDER & SON, Pembroke, Me.

"If you could hear the Kentucky women praise **Castoria,** it would do your heart good. No more Castor Oil or Soothing Syrup for our babies." GREEN V. HOLLAND, Clover Bottom, Ky.

Uses It in His Practice.

CORNWALL, LEBANON Co., PA., March 17, 1873.

"I use **Castoria** in my practice, and take pleasure in **recommending it to the profession** as a safe, reliable, and agreeable medicine. It is pleasant, and superior to Castor Oil."
E. A. ENDERS, M. D.

A Clergyman Says:

"I have used Dr. Pitcher's **Castoria** in my family and cheerfully bear testimony to its doing all that is claimed for it."
REV. R. S. POPE, Hyannis, Mass.

Dr. Archer, an Eminent Brooklyn Physician says:

111 S. OXFORD ST., BROOKLYN, Feb. 22, 1872.

"**Castoria** is so well adapted to the derangements of children, that I can recommend it as superior to any other known remedy."
H. A. ARCHER, M. D.

Nothing Equal to Castoria.

COLUMBUS, Conn., May 8, 1876.

"I have a family of eight children, who have used **Castoria.** I recommend its use for children, in preference to any medicine I know."
NORMAN P. LITTLE, M. D.

"Now, my dear," said the teacher, "what is memory?" The little girl answered, after a moment's reflection, "It is the thing you forget with."

Hellebore will kill potato bugs just as it did before the new version.

What is the difference between an umbrella and a woman? One you can shut up, the other you can't.

"Hadn't I better pray for rain to-day, deacon?" "N-not to-day, dominie, I think the wind isn't right.

A Cough neglected may lead to serious results. Porter's Balsam will give relief at once.

"Have you dined?" said a lounger to his friend. "I have, upon my honor." "What a scanty meal you must have made."

Bob and cousin Sue crept down the lane,
Tempting harvest apples for to steal—
That night they yelled with stomach pain
And threw up half their stolen meal.

Next day the doctor was by Bob's side—
But Castoria was given Sue;—
Alas poor Bob, he quickly died
And well, by his grave, wept cousin Sue.

An Irishman who had a pig, fed it to repletion one day, and starved it the next. On being asked his reason for doing so, he replied, "Och, sure, and isn't it that I like to have bacon with a strake o' fat and a strake o' lane?

A camel will work seven or eight days without drinking. In this he differs from some men who drink seven or eight days without working.

When the pilgrims first landed they fell on their knees, after which they fell on the aborigines.

Mothers will consider:

1st. **That no medicine** should be given to a child without their full knowledge of what it is composed;

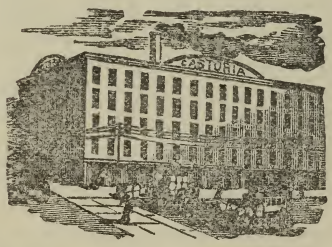
2d. **That Castoria** is purely vegetable, and that a list of its ingredients accompanies each bottle; 3d. **That they are** familiar and harmless;

4th. **That Castoria** is a standard prescription of a distinguished physician (Dr. Samuel Pitcher) as the result of thirty years' observation and practice;

5th **That Castoria** may be given by any one and without change of diet; that it is superior in its effects to Paregoric, Morphine Syrups or Castor Oil, without being **dangerous** or **nauseous;**

6th. **That consumers** receive **35** average doses for **35** cents—or **one cent** a dose; a bottle contains **900** drops of concentrated extract, which gives 90 doses of 10 drops each, 35 doses of 25 drops, etc.;

7th. **That being possessed** of such a reliable remedy, much **wakeful weariness** may be avoided, the **children** kept robust and **cheerful,** and the **mother** enabled to obtain her needful **rest.**



Where Castoria is Manufactured.

Mary Had a Little Kid.

Mary had a little black-eyed kid,
An orphan—cosset—brought up by hand;
Whatever he saw that Mary did
To try that feat this dear kid was bound.

Dick would climb and play; yes he would butt,
And one day pitched Mary in the pond;
But eating was the kid's strongest point,
And of tarts and stamps alike was fond.

Sometimes he would try a tempting shoe.
An apron-string or tomato can,
Or old hoop skirt—anything would do
For this sportive young barbarian.

Poor Dick's eyes with wonder opened wide
When Mary took some Castoria Drops—
And he smashed the vial by her side
And lapped the dregs before he stopped.

Bounding out of doors when feeling well,
Mary found Dick sullen on the grass;
Because he liked its taste and smell,
He ate the cork and munched the broken glass.

A Physician Who Knows.

Royerton, Ind., June 14, 1871.

"I have used **Castoria** and can speak highly of its merits. It is pleasant, harmless and efficacious." A. J. Green, M. D.

1057 Second Ave., New York, April 8, 1872.

"I use **Castoria** in my practice, and find it specially adapted to affections of children and females, requiring an aperient or cathartic."
Alex. Robertson, M. D.

An Experienced Nurse Says:

"I have a four weeks' baby now in charge, with whom quarter to a half teaspoonful of **Castoria** acts like a charm. No mother should be without **Castoria.**"
Mrs. E. C. Gildersleeve.
402 Atlantic Ave., Brooklyn.

Baby's Blessing.

For darling babies, what's the best,
To bring them health, give mothers rest;
Castoria.
What gives our Children rosy cheeks,
What cures their fevers, makes them sleep;
Castoria.
When Babies fret and cry by turns,
What cures their colic, kills their worms,
Castoria.
When curdled milk their stomachs sour,
What makes them well within an hour;
Castoria.
What quickly cures Constipation,
Flatulency, Indigestion,
Castoria.
Farewe . then to Morphine Syrups,
Castor Oil and Paregoric, and
Hail Castoria.

What did Adam first plant in the garden of Eden? His foot.

Baby Wants Castoria.

When the milk curdles, baby will cry,
When fever sets in, baby may die,
When baby has pains at dead of night
Household alarmed, father in a plight;
Then good mothers learn without delay
That Castoria cures by night or day.

"Do the subjects of Dahomey keep the Sunday?" was asked of a missionary. "Yes, and everything else they can lay their hands on."

"Nothing will clean clothes," says tailor Bell, "Like a wife with a brand and Zymel."

Twins.—"So you have twins at your house," said a neighbor to Tommy. "Yes, mum, two of 'em." "What are you going to call them?" "Thunder and Lightning." "What strange names to call children?" "Well, that is what pa called them as soon as he heard they were in the house."

CENTAUR LINIMENT,

the most

Powerful, Penetrating, Pain-Relieving Remedy known to Man.

The **scarred,** the **lame,** the **crippled** and the **pain-stricken** seen upon every side of us, show that although **Remedies are Many, Cures are Few.** Here is a preparation which has stood the test of time, which is an almost **instantaneous** pain-relieving power, has found lodgement around the earth, and the popularity of which, like that of the fabled Centaurs of old, becomes brighter with age and better with acquaintance.

If you have **Rheumatism, Sciatica** or **Neuralgia,** or a **weak back** you want to be cured and not trifled with. **Centaur Liniment** will cure you.

If you are **burned** or **scalded,** you want to extract the pain, and save yourself from **a scar for life. Centaur Liniment** will relieve the pain, and prevent a scar.

If you have **sprained** a joint, or **wounded** the flesh, or **crushed a bone,** you want to avert becoming a **cripple. Centaur Liniment** will allay the inflammation, extract the soreness, limber the joint, heal the wound, and prevent lameness.

Leg Saved from Amputation.

The case of R. F. Stobo is familiar to the profession through the Medical Journals.

OFFICE OF THE ANCHOR LINE TRANSP. Co.,
NEW YORK, Sept. 11, 1877.

"Three years ago I was a terrible sufferer from **Inflammatory Rheumatism.** It settled in my right leg and foot. For **seventeen weeks** I was in agonizing pain, helpless, and reduced to a skeleton. I had the best medical attendance **by Geo. E. Belcher, M. D.,** of 43 E. 21st Street. After their careful attendance (**Dr. Parker** was also consulted), it was considered that **my foot must be amputated** at the ankle. I demanded delay before submitting to this ordeal, determined that, if **compelled to lose my leg,** it should be taken off at the knee.

"Fortunately, at this crisis, I was advised to use **Centaur Liniment.** From the first day's application, I experienced sensible relief. Constant use of the Liniment, in connection with my medicine, **saved my leg.** It effected a **perfect cure** in about six weeks' time. I have been able to attend to my business, which is mostly out of doors, regularly ever since, although I continue to use the Liniment at intervals. I write this with a feeling of gratitude that no one but myself can understand."

R. F. STOBO, 165 W. 21st St.

Centaur Liniment is the most prompt and efficacious external remedy ever devised by man. It is used in immense quantities among all civilized peoples, because it has been found to be an **Instantaneous Pain Reliever**—as sure as chloroform, and as certain as sunrise.

Waiting for a Breakfast.

A little thieving is a dangerous part,
But stealing largely is a noble art;
'Twas mean to rob a henroost of a hen,
But stealing thousands makes us gentlemen.

"You have played the deuce with my heart," said a gentleman to a lady partner. "Well," replied the lady, "it was because you played the knave."

"Why don't I sleep—what makes I cry!"
Quite well you know dear Aunty 'Fy'
When stomach ache and mouf' is sour
And mamma sleeps at midnight hour,
Cry I must for sweet Castoria,
Like what you give Jim and Josie.

Where a candidate itches too much for office the voters will scratch him.

Toast—"An honest lawyer, the noblest work of God," when an old farmer added, "And about the scarcest."

Like a dollar shone the collar of old Sell,
But the shine disappeared when he used Zymel.

Why do ladies, squeezing wet linen, remind us of going to church? Because the belles are wringing.

Why is a hen on a gate like a cent? Because the head is on one side and the tail on the other.

Eight Years Sick of Palsy.

"*Dear Sir*:—I am thankful for the **Centaur Liniment**, it has done me good—so much good that I feel like a new woman. My lameness is from Palsy of eight years standing. I write with my left hand. I can hobble through the house and help tend the office; but I think, with God's blessing for your Liniment, there will be another way for me." JANE PHILLIPS.

PHILLIPS MILLS, INDIANA CO., PA., NOV. 4th, 1878.

The Best Authority in America.

NEW YORK, Aug. 21, 1874.

"Centaur Liniment is the best thing for Wounds, Galls and Sprains we have ever known. We keep a supply of it in our stables and have used it with great satisfaction upon our men and hundreds of valuable horses under our care."

E. PULTZ, Supt. of U. S. Express Co.
H. MARSH, Supt. of Adams Express Co.
ALBERT S. OLIN, Supt. of Nat'l Express Co.

Americans

Use **Centaur Liniment** for Boils, Bruises, Burns, Chilblains, Cuts, Earache, Felon, Itch, Lumbago, Mumps, Neuralgia, **Pain in Back,** Pimples, Poisonous Bites, Rash, **Rheumatism,** Salt Rheum, Scurvy, **Scalds,** Sciatica, Stiff Joints, **Strains,** and Swellings, also for **Sprains,** Kicks, Gall, **Spavin,** and Scratches upon Horses.

The Centaur Liniment in England.

J. M. RICHARDS & Co., London.

CHESTER, April 21st, 1881.

"*Gentlemen*:—We are nearly pulled out of our place for **Centaur Liniment.** Send the amount of our order immediately."

Respectfully, GRIDLEY & SON.

Englishmen

Use **Centaur Liniment** for Gout, Sciatica, Lumbago, Tic-Douloureux, Neuralgia, **Nervous Headache,** Mumps, Quinsy Sore Throat, Wens, Ulcers, Scalds, Burns, External Piles, Contracted Cords, Wounds, Sores, Stiff Joints and **Lameness,** from whatever cause, upon either **man** or **beast.**

Germans

and **Russians** use **Centaur Liniment** for Goitre, Rash, **Pimples, Itch,** Ringworm, **Boils,** Felons, **Strains** and **Sprains.** The **French, Spaniards** and **Italians** use it for **Freckles,** Cutaneous Eruptions, **Scald Head,** Swellings, Lameness, Sore Nipples, Caked Breast, **Rheumatism** and pains of all kinds.

The Turks,

Armenians, and **Tartars** use **Centaur Liniment** for Sabre Wounds, Weeping Sinews, Fever, Sores, Earache, **Itch,** Eruptions of the Skin, Strains, **Sprains,** Bruises, Galls, and Contusions upon Men and Horses.

The Chinese,

Mongolians, and **Japanese** use the celebrated **Centaur Liniment** for Compressed Muscles, **Corns,** Opium Dizziness, Stiff Joints, Cramps, Wounds, **Weak Back,** Pain in the Side, Eruptions, Contusions, **Burns,** Cuts Bruises, Rheumatic Affections, and **Lameness of all kinds.**

The Arabs

and **Egyptians** use **Centaur Liniment** for **Scrofula,** Leprosy and Wounds, and for **Galls, Strains, Spavin** and **poisonous bites** upon **horses** and **camels.**

Bad Case of Inflammatory Rheumatism.

188 ATLANTIC AVE., BROOKLYN, July 17, 1877.

"* * * For a long time I have been a great sufferer from Inflammatory Rheumatism, for which I could find no relief, until I tried **Centaur Liniment.** In one week's time I was able to walk without pain—something new to me for years. * * * I feel that I am to be restored to health and relieved of suffering. My thanks for **Centaur Liniment** cannot be expressed."

MRS. E. EDWARDS.

A woman may not be able to sharpen a pencil or throw a stone at a hen, but she can pack more articles into a trunk than a man can do in a one-horse wagon.

How his trousers were spotted no one can tell,
But he made them look new by using Zymel.

I'SE GOT A LEETLE BABY.

Dru as I leeve, most every day
I lafs me vild to see de vay
Min leetle baby dries to play—
Dat funny leetle baby.

Ven he no sleeps at night so schweet,
I gumps shpry upon mine feet,
And some Castoria he vill eat,
And all is vell mit baby.

Around mine neck, so nice and varm,
Vas squeezin' me dat leetle arm—
Mine Gott, may never come some harm
To dis sweet leetle baby.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhœa, Eructation, Gives healthy sleep, and promotes digestion, Without injurious medication.

A babe is a mother's anchor. And the mother is the "anchor's" spanker.

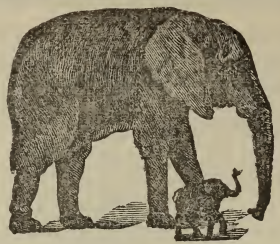
For five dollars her carpet she could not sell,
One hundred it brought after using **Zymel.**

Use Porter's Balsam for a cold.

"THE REQUIREMENTS."

Buckwheat cakes and Pumpkin pie,
Must the gal that marries I,
Make a pudding, darn a stocking,
At the same time keep a cradle rocking.

The best way to improve a woman's lot is to build a house on it and put a good man in the house.



Jumbo and the Baby Elephant.

Barnum.

438 Fifth Ave., New York, May 9, 1875.

"Among my vast troop of teamsters, equestrians, horses, camels and elephants, there are always some lame, wounded, galled and strained. My doctors and veterinaries all assure me that nothing has proven so prompt and efficacious a remedy for men and animals as **Centaur Liniment.** If you could supply me a live Centaur, I will give you my check for $100,000."

P. T. BARNUM.

Mr. Barnum is the owner of over twenty Elephants, including Jumbo, from the London Zoo and two Baby Elephants.

Paralysis Cured at 74.

Roxanna, Sussex Co., Del., May 27, 1874.

"My mother has **suffered** terribly with Rheumatism for **sixteen years.** Of late she has been **paralyzed** on one side. No one thought she would ever be able to walk again, as she is **seventy-four years of age.** She has been using the **Centaur Liniment** for a few weeks, and now she can **talk and walk** tolerably well. I think that your Liniment **deserves all the praise** it has received." Rev. W. R. TUBBS.

Cured of Rheumatism when 67 Years Old.

Town of West Windsor, County of Easton, State of Mich. } *ss.* :

Riley Hance, on his oath says: "That for the last ten years he has been severely afflicted with Rheumatism, and has been for the last six years entirely helpless, insomuch that he could hardly move, and had given up all hopes of ever being helped. And deponent further says that about five months ago, he commenced the use of Centaur Liniment, which has produced wonderful results, and that he now feels almost as well as ever. Considering my advanced age, 67 years, I think the result a miracle."

RILEY HANCE.

Subscribed and sworn to before me, this 10th day of December, A. D., 1874.

LEONIDAS McQUOWN, *Justice of the Peace.*

Otherwise Crippled for Life.

"* * * * Mr. Elias Bowly was thrown from his horse, breaking one rib and so terribly bruising him that he was unable to leave his bed for several weeks. He says: "I should have died, or been a cripple for life, had it not been for the **Centaur Liniment.**"

M. JOHNSTON, *Postmaster,*
Nolungus, Artoostook Co., Me., Feb. 8, 1872.

His Wife Fell on the Ice.

"* * * My wife received injuries by falling on the ice, which threatened to make her bedridden for life. Dr. ——— had been in daily attendance, but did not succeed in limbering the useless parts. I quietly applied the **Centaur Liniment,** which took down the swelling in one night. My wife is entirely well."

JASPER WESTERFIELD,
238 Wyckoff St., Brooklyn.

Sciatica Cured.

Maryvi..., ... Nov 19, 1873.

"*Gentlemen:*—You certainly have the most efficacious remedy I have ever seen. I have suffered with Sciatica so that I **could not get out of the house** at times, for several years. To say that I doctored and tried remedies does not express it. When I saw the **Centaur Liniment** advertised, I went for it. I have now used three bottles, and can walk without the aid of my cane. I am improving daily."

JOSIAH WESTLAKE.

'Tis naught we hear from West to East,
Confounding man, befriending beast;
But **Centaur Liniment.**

Threw away His Crutches and Swore upon the Holy Bible.

Belfair Court House, Va., March 16, 1876.

"*Gents:*—I had a sore leg for six years, extending from the knee to the ankle. It mattered constantly, and I could only walk with a **Crutch.** I tried many remedies and doctors. They were useless to help me. A friend invested for me one dollar in **Centaur Liniment;** the effect of those two bottles was to stop the discharge and limber the joints, so that I laid **aside my Crutches.** I sent for more **Liniment,** and used it until I was **entirely cured.** I feel it a pleasant duty to make this statement for the benefit of others."

Respectfully, JACOB BYRD.

State of Va., County of Stafford, *ss.:*

"I hereby certify that Jacob Byrd is a well-known citizen of this county, and that I am personally acquainted with the facts certified to by him.

"Given under my hand and seal this 25th day of March, 1875."

G. W. MEEDON, *Justice of the Peace.*

Bitten by a Kentucky Horse.

"In 1875 I was traveling agent for Wilson, Peter & Co., Louisville, and was severely bitten by my horse. Having a sample of the **Centaur Liniment** in my wagon, I had it applied. Myself and those who assisted me were surprised at the speedy effects. * * * I consider it the best external medicine ever made."

ISAAC BRINKWORTH.

Jeffersonville, Ind., May 2, 1878.

Teacher: "Who was the strongest man?" Boy: "Jonah, because the whale couldn't hold him after he got him down."

If twice eleven are twenty-two, how can twice ten be twenty too.

Patrick asked, "An' how'll we know, Jemmy, when ye're dead—ye're after waking me ivery time?" "Bring me a glass o' whiskey, an' say, 'Here's till ye, Jemmy!' an' if I don't rise up an' drink, then bury me."

"Is there any person you wish me to marry?" said a wife to a dying spouse. "Marry the devil, if you like," was the reply. "No, I thank you, my dear. One husband of the same family is enough for me."

When into the grease vat Jason fell
He restored his clothes with pure Zymol.

A Happy Family.

Stomachs will sour and milk will curdle
In spite of doctors and the cradle;
Thus it was that our little Doria
Made home howl until sweet Castoria
Cured her pains;—Then for peaceful slumber
All said our prayers and slept like thunder.

"Are you ill?" asked the physician; "let me see your tongue, please?" "It's no use doctor," replied the patient; "no tongue can tell how bad I feel."

Centaur Liniment will cure Sciatica.

Schoolboy's composition:—"the horse, is an animal with four legs, one at each corner."

You ask what is the secret of wealth. The question is answered in the talismanic word of only four letters: S—A—V—E!

Like spots on the sun shone the coat of young Bell,
They vanished like dew after using Zymel.

The Magic Clothes Cleaner.

Old Clothing Made New.

Zymel Removes

Grease, Gloss and Stains from Black and Gray Woolens, Silks, Satins, Cashmeres, Alpacas, Laces, Crapes, &c.

By the use of Zymel, clothing, dresses, carpets, carriage linings, &c., can be quickly and thoroughly renovated. It gives a fresh, new appearance without injury. Extensively used by tailors, scourers, carriage trimmers, owners of billiard tables, families, &c. To black silk, satins and woolen goods, it gives their original color, luster and stiffness. Each bottle contains enough to clean twenty coat collars or two entire silk dresses.

WHAT THE PUBLIC SAY OF ZYMEL.

As comets sweep the Heavens worlds to dispel,
So soiled clothes are renovated by Zymel.

WHAT ONE BOTTLE IS WORTH.

"With one bottle of Zymel my family cleaned any number of soiled coats, trousers, dresses, and articles of furniture which had been put aside as useless. It is a useful and valuable article." JAS. P. LITTLE, 602 Broadway, N.Y.

FRANKLIN & CO.,

Fashionable Tailors, 147 Fifth avenue, N. Y.:
"It requires but a single trial of Zymel to insure its constant use."

S. B. JONES,

Fancy Goods Merchant, 309 Fulton Street, Brooklyn, N. Y.:
"Zymel is a valuable preparation for removing grease and dirt from woolen and silk fabrics."

JAMES PORTER,

336 Fulton Street, Brooklyn.
"I have used Zymel and can recommend it as A1."

R. H. MACY & CO.,

The great Dry Goods Merchants of New York:
"We consider Zymel a perfect preparation for removing grease and stains from silk, satin, and other fabrics."

BREWSTER & CO.,

The leading Carriage Manufacturers of America:
"We are glad to know of Zymel. It is the best cleanser ever used by our trimmers."

BRUNSWICK & BALKE CO.,

Of New York, Philadelphia, Cincinnati, Buffalo, Detroit, Chicago, St. Louis and San Francisco:
"We have used Zymel on billiard cloth, and find it a perfect cleanser."

GEORGE C. FLINT & CO.,

Furniture and Upholsters, 104 West 14th street, New York:
"We recommend Zymel for removing stains from furniture covering."

Sold by Druggists and Fancy Goods dealers at 50 cents. 1 dozen delivered, Express pre-paid, on receipt of $4. The Centaur Company, 183 Fulton Street, New York.

Meet me by the Moonlight.

Pa buttered his sleeve distressingly well, But ma made it look new by using Zymol.

THE OLD WAY.

How babies stomach once did sour,
How doctors physicked by the hour,
How mothers cried, how they mauled,
How babies kicked, how they squalled,
'Till sweet Castoria caused them all
To sing like birds but never bawl.

The little fishes have an extensive correspondence—almost everybody drops a line to them.

"Why do you paint?" asked a violinist to his daughter. "For the same reason that you use rosin, papa." "What's that?" "Why, to help me draw my beau."

Poison.—The bite of a rattlesnake, the sting of a wasp, or the inflammation from a rusty nail may be rendered harmless by drinking whiskey and applying Centaur Liniment.

Mrs. Snooks loves to make bread, because it cleans her hands so beautifully.

Statue of Liberty, 320 feet high.

WEI DE MEYER'S

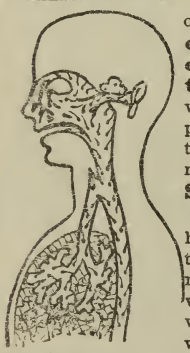
CATARRH CURE.

The Most Important Discovery for the Relief of Human Suffering since Vaccination.

Catarrh is not merely a local inflammation of the nasal organs, but a virus of the mucous membrane, which extends to the **head**, the **stomach** and the **lungs**. The viscid mucous, **swallowed** in infancy, and **while asleep**, poison both the **Digestive** and the **Respiratory** organs. **Dr. Wei De Meyer's** New Treatment is a Vaccination of the mucous membrane, by **Anti-Catarrhal elements**, which **kill the seeds of poison**, and forms a **cure by Absorption.**

Neither smokes, Douches, Insoluble Snuffs, nor Medicated Inhalations, can **possibly reach the seat** of Catarrhal disease. **Dr. Wei De Meyer's** treatment is a **constitutional**, as well as a **local antidote.**

Dr Wei De Meyer's Discovery



of an **unfailing Cure of Catarrhal Diseases by Absorption**, has been received with a professional approval unparalleled since the discovery of Vaccination as a preventive of **Small-pox.**

This plate illustrates how noxious mucous in the Nasal cavities communicate with the eyes; with the drum of the ear; with the stomach; and with the lungs and Bronchial Tubes. Through these processes, Catarrhal virus undermines the entire system, and becomes a fruitful source of Deafness, Polypus, Weak Eyes, Bronchitis, Leucorrhœa and Consumption.

A Minister's Wife Nearly Deaf.

CLARKSVILLE, ALBANY Co., N.Y., Feb. 18, 1880.

"My wife had Catarrh in its worst form, so that she became nearly deaf; she is deriving great benefit from Wei De Meyer's Cure. Please send me six packages more as soon as possible. The Cure is working wonders for my wife."

Rev. W. C. TOWLE, Pastor M. E. Church.

"Radically Cured."

Rev. Chas. H. Taylor, Pastor of the Noble Street Church, Brooklyn, N. Y. writes:

"I have suffered for **several** years from Catarrh, and have tried many remedies without benefit. I have used one box of Wei De Meyer's Compound, and I am radically cured."

CHAS. H. TAYLOR,
140 Noble St., Brooklyn, N. Y.

Paul Boyton, the Great Swimmer

The man who swam the English Channel, and who swam from Pittsburgh to New Orleans, writes:

FLUSHING, L. I., December 30th, 1879.

"While swimming the Connecticut River to Long Island Sound I contracted a dangerous cold. Wei De Meyer's Catarrh Cure was recommended to me, and I am happy to state that it has accomplished all and more than is said for it. * * It has completely cured my agent, Mr. Geo. P. Kiefer, of a terrible Catarrh from which he had suffered for a long time. Hereafter I shall always include this valuable remedy in my outfit."

PAUL BOYTON,

Catarrhal Bronchitis 7 Years.

"I have been doctoring for Catarrh and Bronchitis for seven years. Have been using Wei De Meyer's Cure three months, and eight of my customers seeing its beneficial results on me, want a package each. * * *"

Asleep.

Why is the crow a brave bird?—Because he never shows a white feather.

A white boy asked a young negro what he had such a short nose for. "I spects so it won't poke into other people's business."

Rosy Cheeks.

It is a fact there is no "maybe,"
Mother's milk can't save the baby,
While **Castoria** digests their food
Cures all their pains and makes them good;
Gives them healthy, rosy cheeks,
With dreams of joy while they sleep.

Earn money before you spend it.

Jack—"We're very proud of our ancestry, you know." Tom—"Yes, I know; but how would your ancestry feel about you?"

If you intend to do a mean thing, wait till to-morrow. If you are going to do a noble thing, do it now.

"My clothes look like new," said John to his belle.
"You're a fraud," said Jane, "I think it's Zymel.

Symptoms of Catarrh.

1st. **Snuffling,** Sneezing, Watery Eyes, Disgusting Expectoration, with **Intermittent pains,** by the sides of nose, back of head, and **over the eyes.** 2d. Head seems to **crackle** and **spin;** hearing suddenly ceases upon blowing the nose; **buzzing noises** and **spurts** of thin mucous **upon the tonsils,** or from the nostrils.

3d. **Taste,** Smell and Hearing Impaired; stopping of one nostril; hawking **greenish mucous;** dry scales in nostrils. 4th. **Nostrils closed;** breathing through lips; distressed snoring; discharge copious and offensive; much **Swallowing of virulent poison while asleep.**

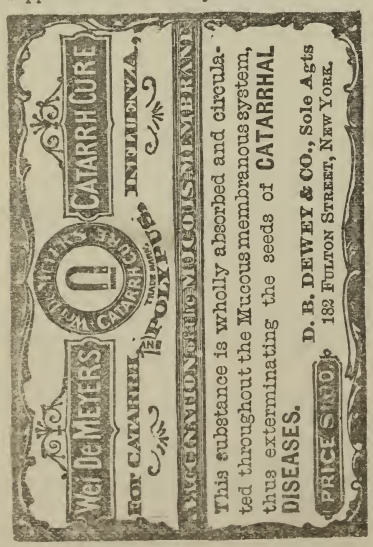
5th. **Fœtid and Sickening breath;** watery stars floating before the eyes; **throat and lungs** sore in morning. **Weakening discharge** from genitals. Sometimes Hay-Fever and Polypus appear.

6th. **Bones of Nose** and fore-skull become **honey-combed** and partitions **rot away,** disfiguring victim for life; **Voice** utterly **destroyed;** very **Deaf; Stench unbearable;** mucous more purulent, planting germs of Scrofula, Consumption and Death. **This, Reader,** is what Snuffles, Influenza and Catarrh become.

Some remedies, or favorable weather, have temporarily mitigated Catarrh, but nothing before the discovery of **Dr. Wei De Meyer** has ever **exterminated its cause.**

FAC-SIMILE OF WRAPPER.

This wrapper, engraved on dark tinted background, is on the top of every package of **Wei De Meyer's Catarrh Cure.** The original is filed at the United States Patent Office, to counterfeit which is a criminal offense against the Government. Fix its appearance in your mind, and when you want a real cure of Catarrh, accept nothing not bearing this wrapper, else disappointment will surely follow.



WEI DE MEYER'S
CATARRH CURE
FOR CATARRH, INFLUENZA, POLYPUS,
WEI DE MEYER'S CATARRH CURE
This substance is wholly absorbed and circulated throughout the Mucous membranous system, thus exterminating the seeds of CATARRHAL DISEASES.
D. B. DEWEY & CO., Sole Agts
163 Fulton Street, New York.
PRICE $1.00

The Seven Apostles of Minneapolis.

Mr. T. K. Gray, Wholesale and Retail Druggist at Minneapolis, Minn., writes:

"Messrs. D. B. Dewey & Co.—Enclosed I send you testimonials from seven of Wei De Meyer's Speaking Apostles, who proclaim their cures everywhere. Send by express one gross of the great Cure."

Isaac Peters, Minneapolis.—"Catarrh seven years; used one box; entirely cured."

E. Richards, Miller, Minneapolis.—"Had Catarrh five years very bad; used Wei De Meyer two months."

John E. Dodge, Head Miller of Washburn "B" Mill.—"Had Catarrh six years; tried many preparations; cured by one box of Wei De Meyer."

Mrs. L. S. Thompson, Brooklyn Centre.—"Have had Catarrh fifteen years; nearly deaf; dry scabs; pain in the forehead, etc.; entirely cured."

Hannah P. Varney, 2119 Tenth St., Minneapolis.—"Have used Wei De Meyer but two weeks; am much better than any time for two years."

D. Ingraham, Miller.—"Have used Wei De Meyer only six weeks; nearly well; suffered over nine years; tried many other things, without any relief."

A. D. Williams, Physician, Brooklyn Centre.—"Have been searching for a real Catarrh cure fifteen years; after using **Wei De Meyer's** formula with uniform success, in several dozen cases, I am now able to say that this preparation is unquestionably the best Catarrh antidote yet discovered or known to man. My own wife, who suffered for fourteen years, is one of the cured.

In church again sat Deacon Jones smilingly well,
For his clothes appeared new with grace and **Zymel,**

Marry a poor girl, and she will go up with you; a rich one and she will go down with you.

Table-salt is a composition of two poisons, either of which alone is fatal.

An editor wants to see more of the ballet-girls. Is it possible?

Apollo must have detested falsehood, for he is always represented in the act of striking a lyre.

Teacher—"Why was Joseph put into the pit?" Thomas (who goes to the theatre)—"Because there was no room for him in the family circle."

Wei De Meyer's Catarrh Cure is sent by mail, postage paid, for $1,00.

Good Babies.

'Tis a jolly day from East to West,
For children thrive, and mothers rest,
The darling girls all named Victoria,
And with the boys, they have **Castoria.**
It is a fact, there is no "may be,"
A mother's milk can't save the baby,
While sweet **Castoria** digests their food,
Gives them health and makes them good.

Mamma—"What can I do to induce you to go to bed? Youngster—"You can let me sit up a little longer."

A drunkard's nose is not painted in water colors.

To cleanse your clothes and make them look well,
One thing there is and that is **Zymol.**

Centaur Liniment heals burns and scalds without a scar.

More than 200,000 Persons

Have been permanently cured of Catarrh during the past year by **Wei De Meyer's Catarrh Cure.** Send for **Dr. Wei De Meyer's Treatise.** It is Post-paid and mailed free. It contains the testimonial, name, street and residence of hundreds in all parts of the country who have been cured of this terrible disease.

Vice-President of the United States Cured.

During the administration of Hayes and Wheeler, **Vice-President William A. Wheeler** was a great sufferer from Catarrh. Frequently he was unable to preside in the Senate Chamber. Of course he employed the most eminent physicians and used popular remedies, but without benefit. After years of humiliation and torture, he was induced to try **Wei De Meyer's great remedy,** which after a few months, completely cured and restored him to health. Mr. Wheeler resides at Malone, N. Y. He has assured us of the above facts and will gladly verify them.

The Early Cock Takes the Bun.

"An Object of Loathing and Disgust."

D. G. McKelvay, Esq., U. S. Government Inspector; residence, 158 15th St., Brooklyn, N.Y.:

"My sufferings from Catarrh for over four years were indescribable. My taste and smell were entirely gone; the virus **ate through** from my left nostril to my cheek; my voice was affected; my health was undermined; I could not breathe through my nostrils; my breath was terribly offensive, and I felt myself **an object of loathing and disgust.** By the final use of Wei De Meyer's wonderful discovery, the formation of mucous ceased, my **taste and smell were restored,** my appetite returned, and I was **perfectly cured.** It is now over three years, and I have had no return of any Catarrhal symptom."

D. G. McKELVAY.

"Too Deaf to Hear the Church Bells Ring."

21 JOHN ST., NEWPORT, R. I., Feb. 18, 1880.

MESSRS. CASWELL, MASSEY & CO., DRUGGISTS.

"When I commenced using Wei De Meyer's Catarrh Cure, my hearing was so much impaired that I could not hear the church bells ring. Thanks to Dr. Wei De Meyer, I am now able to hear ordinary conversation. I recommend the Cure to all persons afflicted with Catarrhal deafness."

CHAS. A. STANHOPE.

From an Eminent Clergyman.

"I was attacked with Catarrhal symptoms some four years ago. It gained upon me although I tried many remedies. **I feared I would have to bring my ministry to a close,** and the relief I experienced from the first box of **Wei De Meyer's was worth ten times the price.** I conduct several services a week, speaking and singing at each. My relief is so great that I would not be without your **Catarrh Cure** at any cost."

REV. CHAS. J. JONES, New Brighton, S. I.

Dr. Wei De Meyer to his Patients

"I have made arrangements with **Messrs. D. B. Dewey & Company,** of New York, to utilize my discovery and spread it among sufferers everywhere. I shall supervise the preparation of the medicine and leave all else with them. **I cured myself of Hay Fever** with this remedy and have heard of no case of a disease of the Air Passages, in which being fully tried, it did not effect a complete cure. The Public's Obedient Servant,

F. W. WEI DE MEYER."

NEW YORK, Oct. 1, 1878.

Wei De Meyer's Catarrh Cure is complete in one package. It will be forwarded by Mail or Express—the **Expenses Prepaid by us,** on receipt of **$1.00** the single Package, or to Clubs, six packages for **$5.00.** Also sold by all Druggists.

Dr. Wei De Meyer's "Illustrated Treatise" containing remarkable testimonials, by those who have been cured by the new treatment, is sent free, Post-paid by us, to any address.

D. B. DEWEY & CO., Sole Agents, 182 Fulton Street (opposite St. Paul's Church Yard), New York.

"Still alive, Uncle Reuben, I see." "Yes, sah; yes, sah; and I'se gwine to lib anudder yeah, suah." "How do you know that?" "Why, sah, I'se mos allus notiss dat when I lib fru do monf of March, I lib fru de whole yeah."

Everybody asks what is **Zymel**, Soiled clothes made new the story tell.

An instantaneous pain reliever—**Centaur Liniment.**

"You must bathe regularly," said a physician, gravely, as he looked at the patient's tongue and felt his pulse. "I do, doctor," returned the sick man, "I go in swimming regularly every Fourth of July."

How Children Had "Fun."

On a summer day they went to play
Down the road to Deacon Jones' pasture,
Dick climbed the tree, Vic looked so gay;
The hours were spent in fun and laughter.
That night those youngsters yelled with pain,
Yes, the funny Dick and Victoria;
The gripes were of the green apple kind,
But quickly cured by **Castoria.**

"The rich," said a jew, "eat venison because it ish deer. I eats mutton because it ish sheep.

A failure in a good cause is better than a triumph in a bad one.

Those suffering with Coughs or Colds will find relief by using Porter's Balsam.

An old bachelor says: "It is all nonsense to pretend that love is blind. I never knew a man in love that did not see two times as much in his sweetheart as I did.

Cooking Receipts.

Soups and Sauces.

Beef Soup.—Sufficient soup stock; boil onion, carrot, potatoes and vegetables to taste. Strain into soup stock and season.

Tomato Soup.—Put 3 pints of tomatoes, stewed, strained and sweetened to 2 quarts of beef stock; add an onion, salt and pepper.

Friday Soup.—1 pint tomatoes, 1 pint milk, 1 quart water, 2 crackers rolled fine, and ½ teaspoon soda; or, in place of the tomatoes, use potatoes.

Roux.—A thickening for soup and gravies. Butter and flour cooked; bring butter to a boiling point; stir and sift in flour to right consistency.

Bouillon Soup.—1½ pounds beef, 1 pound bone, 2½ quarts of water, 1 ounce salt, 2 carrots, 2 onions, about 2 cloves, 3 leeks, ½ head of celery, 1 turnip and ¼ parsnip. Strain and serve clear.

Vegetable Soup.—Equal quantity each, carrots and turnips cut small; with same of green or canned peas; boil separately. Put vegetables in tureen, and pour bouillon over them to suit.

Pea and Bean Soup.—Soak peas or white dried beans over night; boil in salt water in morning; add a clove or garlic. When cooked, strain through a cullender into a pan to heat again; add butter to suit.

Chowder (*Fish or Clam*).—1 quart clams in juice, 3 potatoes, 2 onions sliced thin, 2 spoonfuls fresh pork fine, ¼ pound butter; salt, pepper, allspice and mace to suit. Pour on boiling water to cover. Boil 3 hours; add ¼ gallon milk; boil 1 hour; crumble in 3 large crackers.

Sauces for Meats, Puddings and Fish.

Mint Sauce for Lamb.—2 spoonfuls chopped mint, 1 of sugar, ¼ pint vinegar; add water and heat.

Hard Sauce.—2 cups powdered sugar, butter size of an egg; about spoonful hot water to melt butter. Beat and keep cool.

Sauce Hollandaise or Drawn Butter for Fish.—2 spoonfuls flour mixed with 1 pint water; place on fire. When cooked, add pepper, salt, lemon juice, yolks of 2 eggs. Remove and add ¼ pound butter. Stir all time. Capers make above delicious for boiled lamb.

Mayonnaise Sauce.—For all kinds of salads, chicken, lettuce, tomato, &c. Yolk 1 egg raw, beat with fork, ¼ mustard; work 1 minute before adding oil; add slowly a few drops oil stir constantly. Consistency comes from oil used. When like a jelly add a few drops lemon juice and vinegar. When egg has absorbed a gill of oil add 1 pinch of red pepper and 1½ teaspoonfuls vinegar.

Fish, Meats and Oysters.

Stuff Veal, Beef Hearts, &c.—2 cups of bread crumbs, ½ cup of chopped pork, ½ lemon peel, grated, little lemon juice, thyme, herbs, &c., to flavor. Same for roast turkey, &c.

Beef, Mutton or Veal Stew.—Cut 2 lbs. cold meat into small pieces, and put into cold water; add 1 tomato, little onion chopped fine, pepper and salt; cook slowly. Thicken with butter and flour, and pour over toasted bread.

Oyster Stew.—Put 1 quart oysters, in their own liquor, on the fire. The moment they begin to boil skim oysters out and add to the liquor ½ pint of hot cream, salt, pepper and mace to suit. Skim well; remove; add to it the oysters, and add 1½ ounces butter. Serve hot with toast or crackers

To Bake Fish.—Do not remove head or tail. Stuff. Sew or wind a string around the fish. Lay pieces of sliced pork across top. Sprinkle with water, pepper, salt and bread crumbs. Pour hot water into pan. Baste often while baking. Serve with drawn butter sauce. If not frequently basted the fish will be too dry.

To Cook Fillet of Beef.—It is the underside of the loin. Remove skin and fat; take out the bones. After trimming and larding, put into pan, in bottom of which are some small pieces of pork and beef suet. Sprinkle with salt and pepper. Add 1 cup of water. Bake in hot oven 30 minutes. Baste often with hot water.

Fried Oysters.—Take large-sized; drain; sprinkle with salt and pepper, and cool for 20 minutes. Then roll each one separately in bread crumbs; then in between eggs and milk; then again season, and again mix with bread crumbs. Put into boiling hot lard. Remove, and serve as soon as brown. Season with butter, salt, pepper and any acid sauce.

To Boil Fish.—Except salmon; place in an iron kettle with salted *cold* water. Add a little vinegar or lemon juice. Boil gently, not to break. Remove from water as soon as thoroughly done, and drain before the fire. A little onion, parsley, carrots or cloves, with other seasoning, adds to flavor and appearance. Sauce.—Drawn butter, with hard-boiled egg sliced.

Broiled Steak.—Grease the gridiron with pork or suet. Have it hot. Put on the steak over hot coals. Cover. In a moment, when steak is colored, turn it over. Watch and turn frequently. Do not let out juice by sticking fork in middle. Remove to a hot platter. Sprinkle well with salt and pepper, and butter well. Set platter into oven a few moments, to let butter soak well in. Serve hot. The juice of a good steak is inside of it—not a gravy in the dish.

To Cure Hams.—1 ounce saltpetre to each ham; 1 pint pure molasses to 1 pound of saltpetre; ¼ pound salt to every pint of molasses. Heat the mixture until it nearly boils, and while hot rub it in the meat well, especially around the bones. Let hams lie one week; then place them in a strong salt brine three weeks; remove, and smoke eight hours in fresh water; hang and dry two weeks; smoke three to five days, according to size. Then wrap up in strong tar paper, and tie close. Then tie in cotton cloth bags. Separate the paper from the cloth by stuffing in shavings or sawdust. Hang near the roof.

Salads.

Potato Salad.—Two sliced boiled potatoes, 1 teaspoonful powdered sugar, 1 spoonful oil, 1 saltspoonful made mustard, 1 ditto salt and pepper, 1 teaspoonful table sauce, 1 egg, beat white and yolk separate; 3 spoonfuls vinegar.

Beef Salad.—Cut in very thin small slices, and put on a dish with chopped parsley. Mix in a bowl 1 part vinegar to 2 parts of oil; add pepper, salt and mustard to taste. Beat together, and pour over the meat.

Salad Dressing.—3 yolks eggs, well beaten; 1 pint olive oil added drop by drop and beaten; juice of two lemons; 1 teaspoonful dry mustard, a little cayenne pepper and little salt. If not moist enough, beat whites 2 eggs and add to it.

Salmon Salad.—1 can fresh salmon, 4 bunches celery. Chop as for chicken salad, and pour over the following: 1 teaspoonful of mustard, 2 tablespoonfuls vinegar, yolks 2 eggs, salt to taste; little cayenne pepper, and mix thoroughly.

Bean Salad.—String and wash the beans. Put into boiling water; when tender remove to cold water to preserve freshness. Then drain; cool for 2 hours before serving. Season with pepper, salt and vinegar. Cover. When served, drain and add salad sauce.

Chicken Salad.—Equal to full-grown chicken, boiled tender and cold; 2 heads lettuce, 1 cup boiling water, 1 spoonful corn starch, wet with cold water; 1 great spoonful fat, skimmed from the liquor in which the fowls were boiled; ½ spoonful oil, ½ cup vinegar, 1 teaspoonful made mustard, 1 raw egg, whipped white, 2 hard-boiled eggs, ½ spoonful powdered sugar. Season to suit. Omit fat and skin of fowl. To boiling water add the corn starch, and stir in skim from cold liquid. Remove from fire, and whip in the beaten eggs. Garnish.

Cream Dressing for Salad.—1 cup sweet fresh cream, 1 spoonful corn starch, or very fine flour; whites of 2 eggs, beaten stiff; 3 spoonfuls vinegar, 2 best salad oil, 2 powdered sugar, 1 teaspoonful (scant) salt, ½ ditto pepper, 1 ditto made mustard. Heat cream almost to boiling; stir in the flour, previously wet with cold milk; boil 2 minutes, stirring all the time; add sugar, and take from fire. When half cold, beat in whipped whites of egg. Set aside to cool. When quite cold, whip in the oil, pepper, mustard and salt, and if salad is ready, add vinegar, and pour it once over it. Especially nice for lettuce. If for chickens, only use white meat.

Cabbage or Lettuce Salad.—1 small firm head cabbage, or 3 heads lettuce, chopped or sliced fine; 1 cup sweet milk, boiling hot; a little less than a cup of vinegar, 1 spoonful butter, 2 eggs well beaten; 1 spoonful white sugar, 1 teaspoonful essence of celery, condiments and oil to suit. Heat the milk and vinegar in separate vessels. When the vinegar boils, put in the butter, sugar and seasoning. Boil up once, and stir in the chopped vegetables. To the hot milk add the eggs; cook one minute after they begin to thicken. Pour custard over salad, stir quickly, cover and set to cool quickly. Serve cold, and garnish with slices of cold boiled eggs, cresses or beets.

Vegetables.

Saratoga Potatoes.—Shave thin, soak in ice water 30 minutes, fry in boiling lard to light brown; drain and salt. Serve hot in folded napkin.

Cooked Cucumbers.—Peel and cut into quarters. Remove the seeds. Put into salted boiling water, and boil until tender. When done, place on buttered toast and spread with butter.

Carrots.—Cut lengthwise; boil until soft, and slice thin. Put in saucepan with 2 tablespoonfuls butter and 1 cup milk. Season with salt, pepper and little sugar; stew ½ hour.

Lyonnaise Potatoes.—6 potatoes, *parboiled*, and when cold slice or cut into dice; one-half onion, chopped; butter or dripping for frying; chopped parsley, pepper and salt. Add seasoning, and serve dry.

Boiled Peas.—First boil the pods in a little water. Skim out the pods, and put the peas in; also a little butter, cream, salt and pepper. Cook 30 minutes. When served, add the juice. A trifle of sugar assists the flavor.

Boiled Asparagus.—Place heads one way; tie in small bundles, and cut off to equal lengths. Put into salted boiling water, and boil until tender. When well drained, arrange upon thin slice of toast. Pour over them drawn butter sauce. Cook 18 minutes.

Cauliflower.—Place a cauliflower head down in well-salted water 1 hour, to freshen it and kill insects. Boil in salted water until tender; put into a baking dish and pour over a thick drawn butter sauce; sprinkle with bread crumbs, and place in oven for 10 minutes.

Spinach or Greens.—Of spinach, dandelion, cowslips, beet tops, &c. Wash thoroughly. Put into just enough salted boiling water to cover. When tender, squeeze out all the water and press through a cullender. Fry a few minutes with a little salt, pepper and butter. Serve with slices of hard-boiled egg.

Pork and Beans.—Soak 1 quart beans over night. Next day boil with one large onion. When nearly done take out the onion, and place beans in baking dish. In centre of the beans put half pound of salt pork, not to be fully hid. Pour in some of the water in which beans are boiled, and bake one hour.

Stuffed Tomatoes.—Get them as large and firm as possible; cut a round place in the top, scrape out all the soft parts; mix with stale bread crumbs, onions, parsley, butter, pepper and salt; chop very fine and fill the tomatoes carefully; bake in a moderately hot oven; put a little butter in the pan, and see that they do not burn or become dry.

Deviled Tomatoes.—1 pint tomatoes, 1 hard-boiled egg—the yolk only, two tablespoonfuls melted butter, 1½ tablespoonfuls vinegar, 1 raw egg whipped light, 1 teaspoonful powdered sugar, salt, mustard and pepper. Pound the boiled yolk, rub in butter and seasoning. Beat light, add vinegar, heat almost to a boil. Stir in the beaten egg until the mixture thickens. Set in hot water while you cut the tomatoes in thick slices. Broil over a clear fire. Lay on a hot chafing dish, and pour hot sauce over them.

Children in the night time, Castoria cry,
Mothers in the darkness, Castoria try;—
Like magic, all pains cease, and quickly creep
The hush of silence and refreshing sleep.

POISONING CHILDREN.

"Forty years ago almost every mother thought her child must have paregoric or laudanum to make it sleep. These drugs will produce sleep, and a few drops, too many of them, will produce the sleep from which there is no waking. Many are the children who have been killed and whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. The use of opium in any form stupefies, intoxicates, and, in quite small quantities, kills. China resisted its importation by a war with Great Britain. In America and other countries, druggists are prohibited from selling either of the narcotics named to children at all, or to anybody, without labeling them "poison." Because children can be conveniently stupefied they have been forced into silence by a dose of narcotics although their stomachs might be full of indigestible food. The definition of "narcotic" is, "*A medicine which relieves pain and produces sleep, but which, in poisonous doses, produces stupor, coma, convulsions and death.*" As the dangerous nature of opium medicines began to be better understood, some dealers disguised their peculiar taste and smell in various mixtures, and thus continued to sell the same ingredients under the names of "Bateman's Drops," "Godfrey's Cordial," "Soothing syrups," etc. Many substitutes for dangerous opium preparations have been searched for and experimented with; the only effective and reliable one found was a composition of senna, pumpkin seed, oxygen, mint, anise seed, salt, soda and clarified sugar. This prescription met with pronounced favor on the part of pharmaceutical societies and medical authorities. It was used by physicians with results so gratifying that, subsequently the originator of the formula procured for it, under the name of "Castoria," the protection of the Patent Offices of the United States and other governments. It is thus seen that the discovery of this remarkable and beneficent remedy was not an accident. While narcotic remedies can, with safety, be only administered by a physician, this prescription can be used by any one. The present extended use of Castoria is unquestionably the result of three facts: 1st, The indisputable evidence that it is harmless; 2d, That it not only allays stomach pains and quiets the nerves, but assimilates the food, and 3d, It is an agreeable and perfect substitute for castor oil. This is a good deal for a medical journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health by regulating the system—not by stupefying it—and our readers are entitled to the information."

—*Hall's Journal of Health.*

Bread, Biscuits, Muffins.

Corn Meal Flapjacks.—1 quart boiling milk, 2 cups white corn meal. Cook on griddle. Serve rolled, with sugar between.

Virginia Beaten Biscuits.—2 quarts of flour, 1 tablespoonful lard, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS, ½ teaspoonful salt; mix with cold water and beat well.

Muffins.—½ cup butter, ½ cup sugar, 2 cups sour milk, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS rubbed thoroughly into a scant quart of flour, and a little salt; bake in muffin rings.

Sally Lund.—1 pint sifted flour, 1 cup white sugar, 1 scant cup butter, 1 cup milk, 3 eggs, 2 teaspoonfuls cream tartar, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS, a little salt; stir all together; bake 20 minutes.

Waffles.—1 quart milk, 2 quarts and ½ pint flour, 4 eggs, 2 tablespoonfuls of melted butter, and a small teaspoonful ARM & HAMMER SODA OR SALERATUS.

Brown Bread.—3 cups yellow Indian meal, 1½ cups rye meal. 3 cups sour milk, ½ cup molasses, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS. Steam 3 hours, then bake 3 hours slowly.

Corn Cake.—3 eggs whipped light, yokes and white separately, 2 cups sour milk or buttermilk, 3 spoonfuls melted butter, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS dissolved in boiling water, 1 tablespoonful white sugar, 1 small teaspoonful salt; corn meal enough to make a rather thin batter. Bake in a shallow pan or in small tins 30 minutes in a hot oven.

Flannel Cakes.—Pour about a pint of boiling water in 2 cups of corn meal; strain in 1 quart of sour or buttermilk, then strain the whole; add flour enough to make a proper batter, first sifting the flour well, mixed with 2 teaspoonfuls ARM & HAMMER SODA OR SALERATUS, before wetting; mix thoroughly, and bake quickly. 1 or 2 eggs beaten in with the milk greatly improves this receipt.

Southern Batter-Bread or Egg-Bread.—2 cups white Indian meal 1 cup cold boiled rice, 3 eggs well beaten, 1 tablespoonful melted butter, 2½ cups milk, or enough for soft batter, 1 teaspoonful salt, a pinch of ARM & HAMMER SODA OR SALERATUS. Stir the beaten eggs into the milk, the meal, salt, butter, last of all the rice. Beat well three minutes, and bake quickly in shallow pan.

Vienna Bread.—2 pounds sifted flour banked around pan, ½ pint milk, ½ pint water; mix a thin butter, quickly add ½ pint milk, in which has been dissolved ½ ounce salt, and ½ ounce compressed yeast; leave remainder of flour against side of pan; cover and keep free from air 45 minutes; then mix in rest of the flour until dough leaves side and bottom of pan. Let stand for 2½ hours. Divide into 1-pound pieces. Sub-divide into 12 pieces. Fold corner of each piece to centre; turn over to rise for 30 minutes. Put in hot oven: bake 20 minutes.

Croquettes, Pates, &c.

Mock Duck.—Take a round steak; make stuffing as for turkey; spread stuffing on; roll it up and tie; roast from ½ to ¾ hour.

Stuffed Tomatoes.—Prepare bread crumbs with minced onions, fried in butter; pepper and salt. Scoop out a place on the top of the tomato, in which place the stuffing.

Deviled Beef.—Take slices of cold roast beef; lay them on hot coals and broil; season with pepper and salt; serve with a small lump of butter on each piece.

Fish Croquettes.—Any cold fish, boiled, baked or fried, from which all fat, bones and skin have been removed, chopped fine; one-third as much mashed potato rubbed to a cream, with a little melted butter.

Corn Meal Croquettes.—½ pound granulated sugar, ½ pound corn meal, and ½ pound wheat flour, and the same of butter, with a little grated lemon peel; mix to a paste; roll out thin; cut into forms and bake on tins; serve with powdered sugar over them.

Veal Cheese.—Equal quantities of sliced boiled veal and tongue; pound each separately in a mortar, adding butter as you pound; mix in a stone jar; press hard; pour on melted butter; keep covered in dry place; when cold cut in slices for lunch or tea.

Pates of Chicken or other Meat.—Line small *pate*-pans with good puff paste; let this get crisp in a cool place, and bake in a brisk oven. Stir minced chicken, well seasoned, into a good white sauce; heat through; fill the shells; set in an oven to brown *very* slightly, and serve.

Potato Croquettes.—Season cold mashed potatoes with pepper, salt and nutmeg. Beat to a cream, with a tablespoonful of melted butter to every cupful of potatoes; add 2 or 3 beaten eggs and some minced parsley; roll into small balls; dip in the beaten egg, then in bread crumbs, and fry in hot lard.

Rice Croquettes.—1 teacup of rice, boiled in a pint of milk; when boiled and hot add a piece of butter the size of an egg, 2 spoonfuls sugar, 2 eggs, juice and grated peel of 1 lemon; stir this up well; have ready the yolks of 2 eggs beaten on a plate, cracker crumbs on another; make the rice in rolls and dip in the eggs and crumbs; fry them in butter; serve hot.

Chicken Croquette.-Minced Fowl or Meat.—About one-quarter as much fine bread crumbs as meat; 1 egg, beaten light, to each cupful minced meat; gravy enough to moisten the crumbs and meat; pepper and salt and chopped parsley to taste; yolks of 2 hard-boiled eggs, rubbed fine, added to the meat; mix into a paste; make, with floured hands, into rolls or balls; roll in flour until well coated, and fry, a few at a time, in nice dripping, or a mixture half lard and half butter. As you take them out, lay in a hot cullender, that every drop of fat may be drained off. Serve in a heated dish, and garnish with cresses or parsley.

Castoria.

Jede Mutter sollte mit **Castoria** bekannt sein. Es hilft Kindern wunderbar. Es leistet gerade das, was Dr. Ulrich vor dreizehn Jahren sagte:

„No. 90 Bond Str., N. Y., 5. April 1872.

* * * Es gewährt schleunige Linderung für den Magen und die Eingeweide. Ich finde **Castoria** so wunderbar geeignet für die Beschwerden von Kindern und Säuglingen, daß ich es als etwas Vorzüglicheres denn jede andere mir bekannte Arznei in meiner Praxis anwende.

Carl Ulrich, M. D."

Folgendes ist gerade was Castoria bewirkt:

Bei Zeiten ausgebessert.

Castoria zerstört **Würmer.**
Castoria beseitigt **Fieberigkeit.**
Castoria schmeckt angenehm.
Castoria verhütet **saures Milchgerinnsel.**
Castoria heilt Durchfall und **Wind-Kolik.**
Castoria hilft gegen Leiden beim **Zahnen.**
Castoria heilt Hartleibigkeit und Blähung.
Castoria hebt die Wirkungen **kohlensauren Gases** oder schädlicher Luft auf.
Castoria ist frei von **Morphin, Opium** und anderen **narkotischen Giften.**
Castoria bewirkt **Aehnlichung** der Speise, **regulirt** den **Magen** und die **Därme** und bringt gesunden und **natürlichen** Schlaf.

Paregoric, Laudanum, Bateman's Tropfen, Linderungssyrup u. s. w., alle enthalten sie Morphin oder Opium in irgend einer Form. Sie erzeugen betäubende Schläfrigkeit und sind gefährlich. Das Recept für **Castoria** ist weit und breit bekannt. Es ist völlig harmlos. Es gewährt **natürlichen** Schlaf durch Regulirung des Magens und der Därme.

Ein Geistlicher sagt:

„Ich habe Dr. Pitcher's **Castoria** bei meiner Familie angewandt und bezeuge gern, daß es Alles bewirkt, was von ihm gerühmt wird."

Ehrw. R. S. Pope, Hyannis, Mass.

Dr. Archer, ein ausgezeichneter Brooklyner Arzt, sagt:

111 S. Oxford Str., Brooklyn, 22. Febr. 1872.

„**Castoria** ist gegen Gesundheitsstörungen bei Kindern so gut geeignet, daß ich es als jeder andern bekannten Arznei vorzuziehen empfehlen kann." H. J. Archer, M. D.

Nichts kommt Castoria gleich.

Columbus, Conn., 3. Mai 1876.

Ich habe eine Familie von acht Kindern, welche **Castoria** gebraucht haben. Ich empfehle es zum Gebrauche für Kinder als etwas Besseres denn jede andere mir bekannte Arznei."

Norman P. Little, M. D.

Ein medizinisches Journal sagt:

* * * Narkotische Heilmittel können mit Sicherheit nur von einem Arzte angewandt werden. Unsere Pflicht aber ist es, die Gefahr bloßzulegen und die Mittel zur Förderung der Gesundheit zu registriren. Das Vergiften unschuldiger Kindlein aus Habgier oder Unverstand sollte endlich einmal aufhören. Unseres Wissens ist **Castoria** ein Heilmittel, welches durch Regulirung des Organismus, nicht durch seine Betäubung, Ruhe und Gesundheit erzeugt — und unsere Leser haben das Recht, darüber belehrt zu werden."

— Hall's Journal of Health.

Puddings.

Plain Suet Pudding.—1 pound flour, 4 ounces beef suet, a pinch or two of salt, ½ pint of water; chop the suet *very* fine, and mix it with the flour; work the whole into a paste. Tie the pudding, rolled in the shape of a bolster, in a cloth, and boil three hours.

Roly-Poly Pudding.—Make a plain suet paste; roll it out thin, and spread the jam evenly over it, leaving a space of an inch all round, or the jam will run out; roll it in the shape of a bolster; tie it in a floured cloth, and put it into a saucepan of boiling water for 1½ hours.

Batter Pudding without Eggs.—6 spoonfuls of flour, 1 quart of milk, ½ tablespoonful salt, 2 of ginger, 2 of tincture of saffron, a few raisins and currants. Mix the flour with a small portion of the milk; then add the remainder of the milk, salt, grated ginger and saffron; mix all together and boil one hour; raisins or currants may be added.

Cottage Pudding.—1 pint flour, 1 cup sour milk, 1 egg, butter size of an egg, ¾ cup sugar, 1 teaspoonful Arm & Hammer Soda or Saleratus, mixed well with the flour before it is added. Nutmeg and salt to taste. Sauce for above.—2 cups sugar, 2 teaspoonfuls butter, 1 cup of boiling water, 1 glass of wine or cider. Nutmeg or cinnamon to taste.

Corn Starch Pudding.—Boil 1 quart milk; then beat yolks 4 eggs with 4 spoonfuls corn starch and a little milk; stir into the boiling milk; let it boil up once, and turn into a pudding dish; then beat the whites of the eggs to a froth; add 4 spoonfuls powdered sugar; cover with the mixture; set in oven and brown lightly. Flavor with vanilla, lemon, &c.

Bread Pudding.—1 quart of milk, 4 eggs—the whites of 3 more for *meringue*—2 cups very fine, dry bread crumbs, 1 spoonful melted butter, 1 teacupful sugar, juice and half the grated peel of 1 lemon; beat eggs, sugar and butter together; soak the crumbs in the milk and mix well; season and bake in greased dish; when almost done cover with a *meringue* made of the whites of 3 eggs and a little powdered sugar. Eat cold.

English Tapioca Pudding.—1 cup tapioca, 3 pints fresh milk, 5 eggs, 2 spoonfuls butter, 1 cup sugar, ½ pound raisins, seeded and cut in half, half the grated peel of 1 lemon. Soak tapioca 1 hour in a pint of the milk; pour into jar; set in a pot of warm water and bring to a boil; when tapioca is soft all through turn out to cool somewhat while you make the custard. Beat the eggs very light; rub butter and sugar together; mix all with the tapioca, the fruit last. Bake in buttered dish 1 hour.

Sponge Pudding.—½ coffeecupful of flour stirred perfectly smooth in ½ pint milk. Set in boiling water and stir constantly until the flour is cooked. When nearly cold add ½ spoonful melted butter, ½ teacup sugar and yolks of 3 eggs (beaten to a froth) together. Just before baking add whites 3 well-beaten eggs. Have in oven a dripping pan half full boiling water. Put pudding in buttered tin dish, and set in dripping pan. Moderate oven 15 minutes. Serve with sugar and cream or sauce.

Dessert.

Ice Cream.—1 quart of cream, 1 pint of milk, 1 cup of sugar; flavor to taste. Beat the cream to a froth; stir in the milk and sugar thoroughly; freeze, and pack for 2 hours.

Frosting with Gelatine. Dissolve a large pinch of gelatine in 6 tablespoonfuls of boiling water; strain, thicken with sugar, and flavor with lemon. Enough for two cakes.

Italian Cream.—1 pint cream, ½ pint of milk, 1 cup sugar, 1 cup wine, to be whipped ½ hour; ½ box gelatine, dissolved ½ pint water; mix with other ingredients. Use milk in place of cream, if cream cannot be obtained.

Blanc Mange.—1 quart milk, 1 ounce gelatine, sweeten to taste; put on the fire, and keep stirring until it is all melted, then pour into a bowl and stir until cold; flavor with vanilla; pour into a mold, and put it into a cold place.

Charlotte Russe.—½ package gelatine, dissolved in 1 tumbler milk; stir in one quart cream, 1 teacupful sugar, 1 teacupful extract vanilla. Scald when cold, beat for 30 minutes, then pour into a bowl or mold, lined with sponge cake. Cook in pan of boiling water.

Icing for Cakes.—To a pound of fine sifted sugar, put the whites of 2 eggs, beaten with a little orange-flower water or simple water, and strain. With this whisk the sugar till it is quite smooth. Lay icing equally over cakes. Cakes should be cold when iced.

Pear and Quince Marmalade.—2 dozen juicy pears, 10 fine quinces, juice of 3 lemons, ½ pound sugar to every pound of fruit after it is ready for cooking; a little cold water. Pare and core the fruit and throw into cold water while you stew parings and cores in a little water to make the syrup. When boiled to pieces, strain off the liquid; when cold, put in the sliced fruit and bring to a fast boil. It should be thick and smooth before the sugar and lemon juice go in. Cook steadily an hour longer, working with a wooden spoon to a rich jelly. Put into small jars while warm. Do not cover until cold.

Vanilla Cream Puffs.—1 cup of boiling water, 2 spoonfuls butter, 1 cup prepared flour, 2 eggs beaten well, 1 cup powdered sugar and whites of 2 eggs, for icing; 1 pint cream whipped with a little sugar, vanilla seasoning in cream. Heat and add 1 spoonful butter. Take from the stove, turn out and beat in the eggs. Put upon a greased tin in spoonfuls; take care not to let them touch. Bake quickly. When cold, cut a round piece out of the bottom with tea spoon, scrape out most of inside. Fill cavity with whipped cream into which you have beaten 2 spoonfuls of iceing; fit back the piece taken from the bottom.

Apple Truffles.—1 doz. apples, 1 large cup of sugar for custard, 1 smaller for apples, 1 scant quart rich milk, 4 eggs, juice and half the grated peel of 1 lemon, 1 pint cream, whipped with a little powdered sugar. Slice apples, put them in jar; cover and set in a kettle of warm water. Bring to a boil; cook gently until tender and clear. Beat to a pulp, sweeten with the smaller cup of sugar; add lemon juice and rind, and put into a glass dish. Make a custard of milk, sugar, and eggs; boil until it thickens, then let it get perfectly cold. Cover the apples with it. Must be stiff, to prevent rising in the custard. Lastly, pile the whipped cream over all.

OR

SALERATUS,

WHICH IS THE SAME THING.

Many Times more Economical to Use than Baking Powder.

TO HOUSEKEEPERS.

It is important that the Soda or Saleratus you use should be WHITE and PURE, in common with all similar substances used for food. Some Soda may appear white when examined by itself, but a comparison with **Church & Co's ARM AND HAMMER BRAND** will show the difference. In making bread with Yeast, it is best to use about half a teaspoonful of CHURCH & Co's ARM AND HAMMER BRAND SODA OR SALERATUS at the same time and thus make the bread rise better, and prevent it from becoming sour, by correcting the natural acidity of the yeast. All good cook-books recommend this.

Farmers and Dairymen should use only the **ARM AND HAMMER BRAND** for cleaning and keeping milk-pans sweet and clean.

HOG DISEASES.

The "Arm and Hammer" Brand Soda or Saleratus is now being used by FARMERS with great success, for the Prevention and Cure of **Hog Cholera**, and other Diseases. Mix with animals' food.

The following is a copy of the Jurors' Report at the World's Industrial and Cotton Centennial Exposition at New Orleans, 1885:

"Having carefully examined the exhibit made by CHURCH & Co., and all competing exhibits, concur in recommending the award of a FIRST CLASS MEDAL. The exhibited Soda is of great WHITENESS AND PURITY.

To insure obtaining only the ARM AND HAMMER BRAND SODA OR SALERATUS, it is best to buy in POUND or HALF-POUND CARTOONS, which have our name and trade-mark on them, as inferior goods are sometimes substituted for the Arm and Hammer Brand when bought in bulk.

SEND STAMP FOR RECEIPT BOOK.

CHURCH & CO., 129 Pearl Street, NEW YORK.

Have you tried our **CONCENTRATED SAL-SODA** in packages? The largest 5c. package and best **WASHING COMPOUND** in the market.

Eggs and Omelets.

Boiled Eggs.—Slip the eggs off the spoon gently into boiling water. Boil, for soft eggs, 2 minutes; for white set, 3 minutes; hard eggs, 5 minutes.

Poached Eggs.—Into simmering, well-salted water carefully drop, so as not to break, 1 egg at a time. Dip water from the side upon eggs. Remove before hard upon separate pieces of thin, hot buttered toast.

Omelette.—6 eggs, 1 cup of milk, 1 tablespoonful flour, a pinch of salt; beat the whites and yolks separately; mix the flour, milk and salt; add the yolks; then add beaten whites; have a buttered spider *very hot*; pour in. Bake in a quick oven five minutes.

Egg Toast.—Beat 4 eggs thoroughly; put 2 tablespoonfuls butter into a saucepan; melt slowly; then pour in the eggs; heat without over a slow fire, stirring constantly; add a little salt. When hot spread on slices of nicely browned toast. Serve at once.

Shirred Eggs.—6 eggs, 3 tablespoonfuls gravy—from poultry is best—enough fried toast to cover bottom of a flat dish, a very little grated cheese, 1 teaspoonful butter; melt the butter in a frying pan; when hot break into this the eggs; stir in gravy and season; stir quickly, and well up from the bottom, until the whole is a soft, yellow mass; have ready in a flat dish the fried toast. Heap the shirred eggs upon this, and serve before it hardens.

Scalloped Eggs.—6 eggs, 5 spoonfuls minced ham, a little chopped parsley, a very little minced onion, 3 spoonfuls cream and 1 of melted butter; season to taste; ¾ cup of bread crumbs moistened with milk and a spoonful of melted butter; line bottom of a small deep dish, well buttered, with soaked bread crumbs; put upon these a layer of chopped ham, with the onion and parsley. Set in the oven, covered, until smoking hot. Beat the eggs to a stiff froth; stir in the cream and a spoonful of melted butter; pour upon the ham; put the dish, uncovered, back into the oven, and bake until the eggs are "set."

Pies and Cakes.

Cream Pie.—1 pint cream, white 1 egg, 1 spoonful corn starch, sugar and spice to taste; bake in 1 crust, made after "Pie crust" receipt.

Pie Crust.—1 quart flour, ½ lb. lard, ½ lb. butter, add with water, knead until smooth; roll it out thin three times, touching it each time with the lard, sprinkling it with flour.

Crullers.—Butter size of an egg, 3 eggs, 1¾ cups sugar, 1½ cups sour milk, all well mixed; then mix thoroughly 1¼ teaspoonsful of ARM & HAMMER SODA OR SALERATUS with enough flour to make a soft dough when sifted into the above.

Ginger Snaps.—1 cup molasses, 1 cup sugar, 1 cup butter, not quite full, 7 cups flour, 1 egg, 1 large teaspoonful ARM & HAMMER SODA OR SALERATUS, 1 tablespoonful vinegar, ginger to taste.

Pies and Cakes.—*Continued.*

Tea Cake.—1 cup butter, 3 cups sugar, 5 cups flour, 1 cup milk, 3 eggs, nutmeg, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS.

Cookies.—1 cup butter, 2 cups sugar, 4 cups flour, 2 eggs, ½ cup cream, ½ teaspoonful ARM & HAMMER SODA OR SALERATUS.

Transparent Pie.—3 cups white sugar and ½ cup butter; 4 eggs, well beaten; mix, bake in one lower crust. Above is for two pies.

Gingerbread.—1 cup molasses, 1 cup sour cream, 2¾ cups flour, 1 teaspoonful ginger, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS, salt.

Bread Cake.—Break the bread in small pieces, and soak in cold milk; when soft add 1 teaspoonful ARM & HAMMER SODA OR SALERATUS, 1 of salt, and flour for a good batter.

Lemon Cake.—1½ cups sugar, 1 cup butter, ½ cup milk, 2½ cups flour, 3 eggs, ½ teaspoonful ARM & HAMMER SODA OR SALERATUS, the juice and grated rind of 1 lemon.

Cider Cake.—2 cups sugar, 1 cup butter, 5 eggs, 1½ cups cider, with 1 teaspoonful ARM & HAMMER SODA OR SALERATUS dissolved in it; spice to taste; 4½ cups flour, 2 cups fruit.

Silver Cake.—½ cup butter, 2 cups sugar, the whites of 8 eggs, ½ cup milk, 2½ cups sifted flour, ½ teaspoonful ARM & HAMMER SODA OR SALERATUS, 1 ditto cream tartar, 1 spoonful essence of almond.

Jumbles.—1 cup butter, 1½ cups sugar, 7 cups flour, 6 eggs, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS, nutmeg to taste. Roll thin in white sugar.

Fruit Cake.—3 lbs. raisins, 3 lbs. currants, 1 lb. citron, 1 lb. butter, 1 lb. sugar, 1¼ lbs. flour, 10 eggs, ½ cup molasses, 1 tablespoon of mace, cloves, allspice, cinnamon and nutmeg, 1 teaspoonful ARM & HAMMER SODA OR SALERATUS, wet in milk. Scorch part of the flour.

Strawberry Shortcake.—1 cup powdered sugar, 1 spoonful butter rubbed into the sugar, 3 eggs, 1 cup prepared flour, 2 spoonfuls cream. Bake in jelly-cake tins. When quite cold, lay berries between the cakes. Sprinkle each layer lightly with powdered sugar, and strew the same over the upper cake. Eat while fresh.

Wedding Cake.—1 pound flour, 1 lb. brown sugar, 1½ lbs. butter, ½ lb. candied citron, 4 lbs. currants, 4 lbs. raisins (stoned or chopped), 9 eggs, 1 spoonful each ground cloves, cinnamon, mace, nutmeg, and 3 gills brandy. Fruit should be rolled in flour before straining in.

Mince Pie.—4 pounds lean cold boiled meat, 9 pounds apples, 1½ lbs. suet, chop fine; 3 lbs. raisins, 2 lbs. currants, ½ lb. fine sliced citron, 5 lbs. sugar, 3 teaspoonfuls ground cloves, 10 ditto cinnamon, 5 ditto mace, 1 ditto blackpepper, 5 spoonfuls salt, 1½ quart cider, ½ quart vinegar mixed with 1 quart molasses. Mix all, and add juice of grated rinds of 2 lemons; or, in place of cider, vinegar and molasses, 1 quart sherry and 1 pint brandy. Keep meat in stone jars for some time. Add more liquor, when making pies.

Pickles, Jellies, &c.

Tomato Catsup.—Take 1 peck tomatoes, ¼ lb. pepper, ¼ lb. allspice, ¼ lb. white mustard-seed, 2 ounces cloves, 6 spoonfuls salt, half gallon vinegar. Boil slowly 6 hours. Cool and then bottle.

Pickled Peaches.—Take out of free stone peaches the pits; fill with large and small mustard seeds, mixed with grated horse-radish; tie up; pour on a hot syrup, made of 1 lb. brown sugar to a quart vinegar. Seal from air.

Chili Sauce.—1 peck ripe tomatoes, 6 green peppers, 6 onions, 2 teaspoonfuls each of ground allspice, cloves and cinnamon; 2 cups brown sugar, 5 cups vinegar. Salt to taste. Scald and skin tomatoes, chop onions and peppers fine. Boil all together slowly 3 or 4 hours. Then bottle.

Wine Jelly.—Take 1½ boxes Cox's gelatine, 1 pint cold water, juice 3 lemons, grated rind of 2; let stand an hour, then add 2 lbs. loaf sugar, 3 pints boiling water; boil 5 minutes; just before straining in flannel bag stir in 1 pint sherry wine, 6 tablespoons best brandy. Have used this receipt for 15 years and never failed.

French Pickle.—1 peck green tomatoes sliced, 6 large onions, 1 teacupful salt thrown on over night. Drain thoroughly, then boil in 2 qts. water and 1 qt. vinegar 15 minutes; drain in cullender. Then take 4 qts. vinegar, 2 lbs. brown sugar, ¼ lb. white mustard seed, 2 tablespoons each of cloves, cinnamon, ginger, ground mustard and 1 tablespoonful cayenne pepper; put altogether and cook 15 min.

How to Cook Cranberries.—Put 1 qt. or more of cranberries to cook, with cold water to cover. Let them boil slowly for 1 hour, then strain through a sieve or fine cloth, pour back in the stew pan or pot, and to every cup of juice put 1 cup of sugar, white or brown. Let boil for another hour; then, before taking them up, add corn starch to thicken to taste for a nice jelly; 1½ teaspoonfuls to every quart will be enough.

Chow-Chow.—1 peck green, ¼ peck ripe tomatoes, 6 onions, 3 heads cabbage, 1 dozen green peppers, 3 red peppers; chop to suit; sprinkle with ½ spoonful salt. Put in coarse cotton bag; drain 24 hours. Put in a kettle with 3 lbs. brown sugar; ½ teacupful grated horse-radish; 1 spoonful each ground black pepper, ground mustard, white mustard, mace, and celery seed. Cover all with vinegar. Boil till clear. If yellow color is desired, add 40 ounces curry powder to each gallon vinegar. Use porcelain-lined kettle, if possible; brass or copper must not be used.

To Make Jellies of Grapes, Currants, &c.—Put the fruit in a stone jar placed in a boiler of hot water. When sufficiently softened strain through a jelly-bag; place the juice in a kettle; and allow 1 lb. sugar to pint of juice. While heating the juice, place the sugar in the oven; allow the juice to boil 20 minutes, then add the heated sugar. Let all come to a boil and remove from the fire; having your glasses scalded, pour in brimming full and allow them to stand in the sun for at least a day, or till the jelly is thoroughly set; cover with tissue paper saturated with brandy, and over all paste thick white or brown paper.

Miscellaneous Receipts.

Mushrooms are quite equal to meat in nourishment.

Meat made into broth will go further than roasted.

Milk Porridge.—2 cups best oatmeal, 2 cups water, 2 cups milk.

The Difference between eating bread new and stale is one loaf in five.

Nettles, when quite young, before they flower, make good greens; so do hop-tops, which eat like asparagus.

If Meat is a little tainted, sprinkle charcoal over it, or boiling it with a lump of charcoal in the water, will make it quite fresh again.

For Curing Beef or Tongue.—½ ounce potash, ½ ounce saltpetre, 1 pound brown sugar, 1½ pounds of rock salt. For twenty-five pounds.

To Boil a Ham.—Soak the ham for 24 hours. Boil it in cold water. When it is done, draw off the skin and strew rasped bread over it, and boil 4 or 5 hours.

Oatmeal Gruel, for Invalids.—Two cups Irish or Scotch oatmeal, two quarts water, one teaspoonful salt. Let oatmeal soak over night in half the water. Strain. Add rest of the water with the salt, and boil until it thickens. Let it cool to a jelly. Eat with powdered sugar and cream.

To Cure Beef for Drying.—To every 30 pounds allow 1 teaspoonful saltpetre, 1 quart fine salt, mixed with molasses until the color is that of brown sugar; rub the pieces of meat with the mixture, and when done, let all stick to it that will. Pack in a deep, narrow keg or half barrel, that the pickle may cover the meat, and let it remain 48 hours. Take it out, and hang in suitable place for drying.

Good Coffee.—Never buy ground coffee—generally adulterated. Roast in small quantities in an open earthen vessel on the top of the stove. Stir frequently. If done too little, the aroma is not developed, the beverage made from it is insipid. If done too much, the aroma is dissipated, and the infusion bitter. When done properly, the berries are of a rich, bright brown color. Do not cool in the open air. Wrap in white paper and then in flannel until cool. Then put in a dry, tight vessel. A few bags of pepper once spoiled a whole ship-load of coffee. Coffee should be ground only as wanted for the table.

Apple Fritters, other Fruit Fritters.—8 to 10 apples, juice of 1 lemon, 3 cups prepared flour, 6 eggs, 3 cups milk, some powdered sugar, cinnamon, nutmeg, and a little salt. Pare and core the apples, leaving a hole in the centre. Cut crosswise into slices ¼ inch thick. Spread on a dish, sprinkle with lemon juice and powdered sugar. Beat the eggs light, straining yolks, and add to the latter the milk and salt, the whites and the flour, by turns. Dip the slices into the batter, turning them until thoroughly coated, and fry, a few at a time, in hot lard. Throw upon a warm sieve as fast as you take them out; sift powdered sugar, cinnamon and nutmeg over them.

Castoria.

When baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Zymel.

THE ease with which grease spots can be removed by Zymel, leaves no excuse for soiled clothes. Zymel may be truly styled "The Magic Clothes Cleaner." Nothing makes one appear at greater disadvantage than a shiny coat collar, greasy trousers or a spotted dress. A bottle of Zymel costs but half a dollar. One bottle will restore many dollar's worth of soiled clothing and make the garments look as good as new. Any druggist or general merchant has Zymel, or can procure it in the nearest city.

Centaur Liniment.

AN exceptionally good thing is certain to be appreciated. It has been a thousand times proved and it is now well established that the old Centaur Liniment will cure Rheumatism, sprains, old sores and lameness when every other known treatment has failed of relief. The almost instantaneous manner in which this liniment subdues inflammation and extracts soreness from burns and wounds has caused its reputation and use to extend around the world. No household or owner of horses can afford to be without this quick and certain pain annihilator.

Wei De Meyer.

WEI De Meyer's final discovery of a cure of Catarrh encountered the opposition of physicians, until repeated demonstrations conquered incredulity. Now they give it up and every honest physician will say—"Yes, Wei De Meyer's Catarrh Cure is a wonderful remedy." "Wonderful" is but a tame word for a preparation which is as infallible as vaccination and which will absolutely exterminate a poison which has been festering in the system for ten, twelve and fifteen years. Probably more than 200,000 persons have been cured by it of this offensive disease during the last twelve months, It should not be forgotten, that by a Postal request,any person may receive post-paid, Dr. Wei De Meyer's "Treatise" containing the testimonials, names and addresses of hundreds in all parts of the country, who have been permanently cured by this new treatment. Also, that on the receipt of one dollar, Messrs. D. B. Dewey & Co., 182 Fulton St., N. Y. will post-pay and send a package of the great remedy.

Cleveland.

IT came to pass in the fourth year of the reign of Arthur the First, that the people chose Grover, whose surname is Cleveland, to rule over them. Now Grover is a stalwart man of two score and ten years, but unmarried and childless. These were matters of deep concern, not alone to the mothers and daughters of the land, but to its artisans and shopkeepers. 'For a king without heirs, encourageth not trade. "Tailor to the King," "Modist to the Queen," "Hatter to the Prince," "Shoe Maker to the Princess ' and 'Physician to the Royal Family," cause all to follow the fashions and spend their money. Grover farms not as did Washington, neither does he spin, he delights not in horses as did Ulysses, nor can he discriminate between harmless Castoria and dangerous morphine syrups for the babes of a christian people. Herein O Grover, thy wisdom faileth thee. For our old men die, and except we rear the young, a nation cannot be preserved. Nothing so much pleaseth a mother as the prattle of her children and nothing so promoteth the health and preserves the lives of children, as Castoria

Not a Secret Remedy.

Dr. H. S. Flint, of Albany, N. Y., is one of the many physicians who writes as follows:

"In a practice of six and twenty years I have never before endorsed or recommended a medicine not prescribed by a physician known to me. I make an exception in the case of Castoria from the singular circumstance of seeing two infants of two sister mothers similarly affected, one of which I treated and one of which was by its physician given nothing but Castoria. I said to myself, 'there must be something extraordinary in that preparation,' and I examined, analyzed and tested it. I found by referring to the wrapper, that it is not a secret remedy, but bears a formula for any one to read, and learned that the originator of this prescription, Dr. Pitcher, is a man of high standing in my profession. Since then I have in many cases used his prescription of Castoria with most gratifying results.

Many infants and children are poisoned, stupefied and killed by paregoric, laudanum, cordials, drops, so-called soothing syrups, etc. As every physician knows, these articles are composed of the narcotic properties of morphine or opium. For the want of a known substitute, physicians are compelled to use morphine. With us, we render it harmless, but with the inexperienced it is dangerous. By its use many mothers, through ignorance, have poisoned and destroyed the health of their offspring. I am very glad that a harmless substitute for paregoric and various morphine prescriptions has been discovered, and I predict for Castoria an appreciation similar to that which has so long attached to the simple ingredient, senna."

Very respectfully yours,

H. S. FLINT, M. D.
